

## **Tr@de Flexi**

**Dear Investors,**

**Now you can avail of the facility to create position on leveraged margin.**

**Do you want to know how?**

Tr@de Flexi allows investor to create intra-day position in the equity segment on leveraged margin along with securing the same position with a risk cover by placing a simultaneous stop loss market/limit order.

### **Features**

- Tr@de Flexi is available for intra-day trading in equity Cash & Future segment
  - Equity cash – Nifty 50 stocks (Stop loss trigger % set 5% )
  - Equity Futures – Nifty 50 & other nifty indices contracts (Stop loss trigger % set 15 for Nifty – 50 stocks & 2% for other nifty indices stocks\*)
  
- Enable investor to minimize the risk through system generated stop loss market/limit order
  
- Position created can be squared off any time during the trading session, before Time based square off execution.
  
- Auto square off positions on specific time to enable close position

*\*(Stop loss trigger % can be changed by Risk Admin any time according to the market conditions)*

### **How to avail of Tr@de Flexi product facility**

Customer can avail Leverage product facility by signing an undertaking of Tr@de Flexi, document is available for download on

[http://www.rathionline.com/Downloads/634547262314375000\\_Undertaking%20Tr@de%20Flexi.pdf](http://www.rathionline.com/Downloads/634547262314375000_Undertaking%20Tr@de%20Flexi.pdf)

Currently Tr@de Flexi (CO) product is enabled on Tr@de X'pro (exe platform), sooner it will be enabled through web platform (Tr@de Lite & Tr@de X'press).

### **How to place order in Tr@de Flexi product**

- 1) Select cover Order – Buy/Sell Cover order sub menu available under Order/Trade menu
- 2) Cover order screen can invoke through short cut keys (Buy=Shift + F1 & Sell=shift + F2)
- 3) Cover order 1<sup>st</sup> leg Buy/Sell order always execute @ market price
- 4) Cover order 2<sup>nd</sup> leg Buy/Sell by default consider lowest/ highest price
- 5) Stop loss trigger price can set between the range specified on cover order entry screen

### For Example:

If you enter an order buy 100 shares of Reliance @ Rs. 1000, simultaneously system will generate the sell Stop loss trigger order @ Rs. 950 (Trigger % set as 5%).

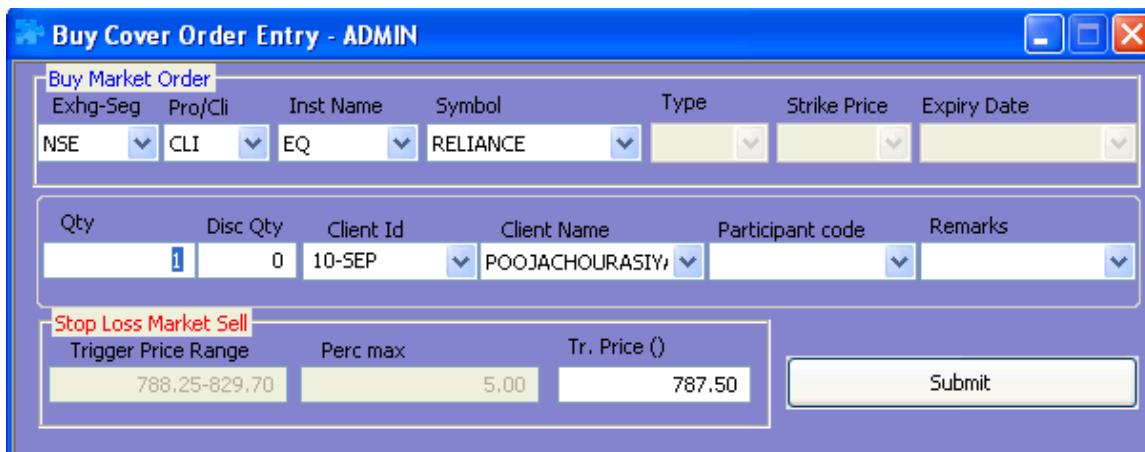

If Reliance price start falling, your stop loss order gets triggered @ Rs. 950 & will execute at best price available in the market.

If Reliance price start moving upwards, then you can execute pending Stop loss order at market price & square off the position.

Advantages of AR – Trade Felix products

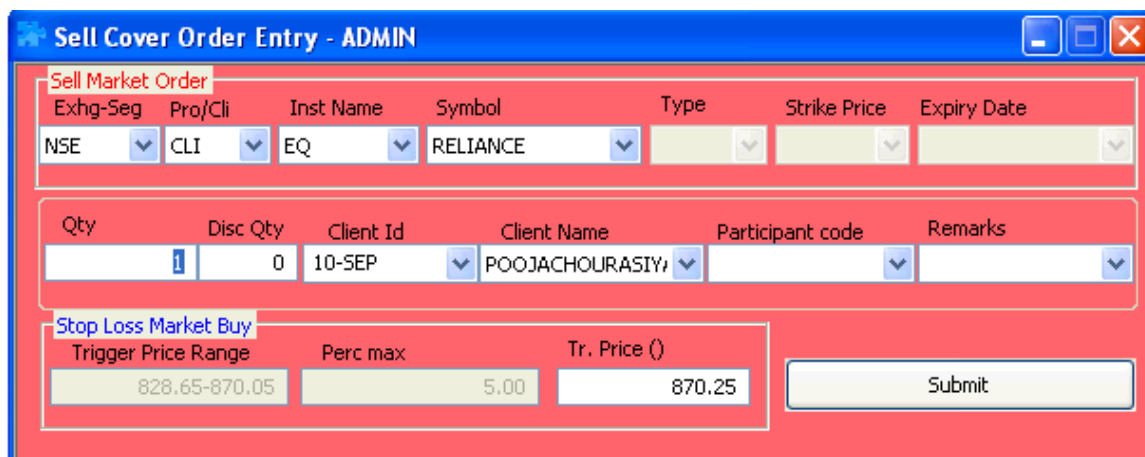

- 1) Benefit of leverage margin
- 2) Maximum loss is limited through Stop Loss order
- 3) Square off position by self or through time based auto square off

### Buy cover order entry screen

The screenshot shows the 'Buy Cover Order Entry - ADMIN' window. It features a 'Buy Market Order' section with dropdowns for Exhg-Seg (NSE), Pro/Cli (CLI), Inst Name (EQ), and Symbol (RELIANCE). Below this is a table with columns: Qty, Disc Qty, Client Id, Client Name, Participant code, and Remarks. The 'Stop Loss Market Sell' section includes fields for Trigger Price Range (788.25-829.70), Perc max (5.00), and Tr. Price (787.50). A 'Submit' button is located at the bottom right.

### Sell cover order entry screen

The screenshot shows the 'Sell Cover Order Entry - ADMIN' window. It features a 'Sell Market Order' section with dropdowns for Exhg-Seg (NSE), Pro/Cli (CLI), Inst Name (EQ), and Symbol (RELIANCE). Below this is a table with columns: Qty, Disc Qty, Client Id, Client Name, Participant code, and Remarks. The 'Stop Loss Market Buy' section includes fields for Trigger Price Range (828.65-870.05), Perc max (5.00), and Tr. Price (870.25). A 'Submit' button is located at the bottom right.
